# Fuel Efficiency Awareness Training LANTRA Accredited

With fuel costs representing a staggering 40% of the total running costs of your tractor, it's worth knowing how to optimize efficiency and maximize performance.

This course looks at all the factors influencing fuel consumption, such as:

- n Driving Style
- n Maintenance
- n Tyre Pressures
- n Ballasting for maximum tractive efficiency
- n Pre-operating checks
- n Field size and efficient fieldwork

This is a full day course which includes a practical session to highlight tractor performance using dynamometer equipment.

This course has gained 80% funding from Lantra LandSkills West Midlands and is on offer to qualifying candidates at a price of £36.

The course is LANTRA accredited and candidates will receive a LANTRA certificate. This course is suitable for tractor drivers and machinery operators and managers at all levels of experience and you will gain skills and techniques which can be implemented immediately to reduce fuel use.
